

Greenfield Orthopaedic Centre

Physiotherapy Plan

Patient: Joseph Mathew

Date of birth: 02 July 1942

Room: 104

GOALS

Week 1 to 2: walk 20 metres with the walker. Week 3 to 4: walk 50 metres and climb 3 steps with support.

BEFORE EACH SESSION

Ask the nurse whether pain relief is due about 30 minutes before the session. Make sure he wears non-slip footwear.

DAILY EXERCISES

Ankle pumps, 10 times every hour while awake. Gentle knee bends, 10 times twice a day, supervised.
