Care Plan | Memory Care

Patient: Robert Chen

Date of birth: 09 May 1938

Room: 110

Allergies: Aspirin (stomach bleeding)

ROUTINE

Keep the same daily routine. Breakfast 08:00, walk 10:30, rest 14:00.

COMMUNICATION

Use short sentences and ask one question at a time. Introduce yourself each time. He responds well to music from the 1960s.

SUNDOWNING

He may become restless in the late afternoon. Keep lights on, reduce noise and offer a calm activity.

SAFETY

Door alarm on at night. Check on him every 2 hours overnight.

MEDICATIONS

Donepezil 5 mg at 21:00. Lisinopril 10 mg at 08:00. Melatonin 2 mg at 22:00.

FAMILY

Daughter Mei Chen visits on Sundays and is the main family contact.
